

# Rajesh Sarkar

Software developer

My passion for computers has driven me to achieve milestones like building full-stack projects as a MERN stack developer and mastering React.js and Next.js. These accomplishments reflect my dedication to becoming a skilled software engineer and embracing innovation in technology.

## PROJECTS

### Potfolio,Live

Build with Next.js and plain CSS

A meticulously crafted portfolio showcasing my expertise as a MERN stack and Next.js developer. It highlights:

### Product listing Live

Build with Next.js and plain CSS

Developed a responsive Next.js-based dynamic product listing platform with seamless API integration. Features include data fetching, interactive UI design, and a dedicated section to showcase personal achievements and skills, enhancing user engagement.

### Unplash Clone Live

Build with Next.js and plain CSS

Built a responsive web application replicating the core features of Unsplash using Next.js. Integrated API functionality to fetch and display high-quality images, implemented dynamic search, and optimized for a seamless, user-friendly browsing experience.

### To-Do List App Live

Build with React.js and plain CSS

Built a comprehensive To-Do List application using React.js, featuring user-friendly task management. Integrated API for data persistence, enabling users to create, update, and delete tasks. Focused on a clean, interactive design for efficient productivity.

### Password Generator Live

Build with React.js and plain CSS

Developed a secure password generator using React.js, designed to create strong, random passwords with customizable length and character options. Focused on an intuitive user interface and responsive design, ensuring a seamless user experience.

### Quiz App Live

Build with Next.js and plain CSS

Created an interactive quiz application using React.js, featuring dynamic question rendering, real-time score tracking, and user feedback. Implemented state management for seamless navigation and user experience, focusing on an engaging and responsive design.

## EDUCATION

### SoftTech-Teaching units -Pilibhit Bareilly

Diploma in Web Development  
[2023-2024]

### Uttarakhand Open University, Haldwani

bachelor of computer science and, software engineering  
Application(BCA)  
[2024-2027]

### Ak inter college,Pilibhit

Intermediate (Science(PCM))  
[2022-2023]

## SKILLS

React.js

Next.js

Redux

MongoDB

Git

GitHub

Bootstrap

Tailwind CSS

Node JS

TypeScript

## TOOLS

Vs Code

Sublime Text

Git

Chat Gpt

Cursor Ai

## LANGUAGES

Hindi

English

Bengali

**RESPONSIBILITIES:**

- Designing and developing responsive websites using react, CSS, and JavaScript
- Conducting research and staying updated on industry trends and best practices in web development and design.
- Conducting research and staying updated on industry trends and best practices in web development and design
- Learning and applying new technologies and techniques to improve efficiency and quality of work.
- Familiarity with React.js and its core principles.
- Deep knowledge of ReactJS/Next.js practices and commonly used modules based on extensive work experience.
- Strong understanding of version control systems, such as Git.
